

## Episode 11: Interlibrary Loan: How can I read an article/ journal / book although there is no access via findit.lu?

In the course of your search, you may come across an article or book which is not available with full text at findit.lu.

This may be to the following reasons:

- License agreements
- Missing subscriptions
- Delay in availability of digital full text (e.g. recent articles of last 6 months are locked)

 **Sorry, no full text available.**  
The full text you're looking for is not available or is subject to licence conditions (e.g. only available in the IP range of the BnL or the University of Luxembourg)

Nevertheless you will get access to the article / book via International library loan. International library loan is a service **organized by the National Library** to obtain articles or books not available in Luxembourg.

**Before ordering an article via International library loan it is essential to be registered in the National Library.** More information on obtaining a National Library card in [episode 1](#).

### What documents are excluded from international lending?

- documents available in the catalog or in the portal bibnet.lu BNU
- an entire volume of a periodical
- original rare books / before 1900
- works of practical knowledge (literature entertaining, practical guides, travel guides)
- reference books.

### How to order?

Connect to Consortium Luxembourg's electronic documentation portal at findit.lu and perform a search from within the portal.

If you searched for an article the results are displayed as follows:

The screenshot shows the findit.lu search results page. At the top, there are navigation links for 'ebooks', 'news', and 'help'. The search criteria are 'adolescence' in 'e-journals', resulting in 452,599 records. The results are sorted by rank. The table below shows the first six results:
